### REMARKS

In response to the examiner's comments, applicants note that it was stated that certain claims would be allowable if rewritten in independent form, including the material from the intervening claims. That is precisely what was done in the last response. Consequently, these claims should have been allowed.

Additionally, literature has been submitted twice in this case. Applicants suggest that the US PTO copy the literature from the literature submitted in other cases by the above listed inventors as the IDS and literature in these cases is identical.

Please call the undersigned at (301) 603-9071 if any questions remain.

Thank you.

Respectfully submitted,
